

Jumpstart to NVivo and Applications

2-day **online** course (Only 30 seats for FPTT Lab)

Date : 19-20 July 2022 (Tuesday & Wednesday)

Organiser : SuITE Research Group, FPTT, UTeM

Trainers : 1) Cik Anis Haneeza
2) Ts. Dr. Yusri Arshad (FPTT)

Fees : RM50.00 for UTeM Students
RM100.00 for UTeM Staff
RM100.00 for Non-UTeM Students
RM200.00 for Non-UTeM Staff

This hands-on workshop is an introduction to NewNVivo. At the end of the day, trainee should have enough knowledge to get up and running with their project. Using the sample data, this workshop covers how to create a project and represent and work with different data sources including documents, audio, videos and pictures also the social media data. This workshop also covers asking questions of your data using the 'find' and 'query' tools, visualizing your data through charts.

The whole training is allocated for 2 days to practice using the sample data. Here's what we'll cover in the course:

Day 1

Introducing NVivo and setting up a project

- Introduction to Nvivo
- Creating the project and navigating around the workspace

Importing the files

- Work with documents and PDFs
- Import data from surveys and datasets
- Create transcripts with audio and video files
- Code and regions the picture file

Working with coding and others

- Creating a coding
- Automatic coding techniques
- Creating cases for different types of data
- Import a Classification Sheet
- Notes

Explore different types of Queries

- Text Search
- Word Frequency

Create visualizations

- Bar Chart

E-certificate is provided

Day 2

- Introduction to Qualitative research
- Qualitative research methodology
- Applications of NVivo in qualitative research

For reservation of seat, kindly fill in the link form . Payment can be made to below bank account and please attach proof of payments in the form.
